

SCHEDULE 8

This Schedule is made pursuant to a Master Services Agreement made between the Bank of Montreal (the "Bank") and Wall Street on Demand, Inc. (WSOD) (the "Service Provider") effective as of the 10th day of December, 2008 (the "Agreement"). Unless otherwise set out, the terms and provisions of the Agreement are incorporated in this Schedule. This Schedule is effective as of the 13th day of May, 2011.

A. Term and Termination

This statement of work will automatically terminate at the end of the 3 year term, beginning from the billing commencement date. In the event that Client requests a continuation of services, the parties may enter into a separate SOW governing additional services.

B. Description of Services

Wall Street On Demand will deliver to BMO, Credit Research Reports (~300 files (XML & PDF) set yearly with updates being provided daily) and Equity Research Company Reports (~ 30 files (XML & PDF) set monthly, with updates being provided daily). Data provider shall be Morningstar.

The Credit Research Reports (average/approx. 6 pages in length) will offer in-depth analysis on companies covered by Morningstar's credit analysts. Reports provided will be limited to all Canadian-domiciled companies on Morningstar's credit research coverage list, as well as an additional 300 firms domiciled outside Canada. This list is refreshed at Licensee's request once after each year.

- Delivery Frequency is to be daily as credit ratings and data are updated with new market events.
- Delivery Format is one RIXML file and one PDF file for each company covered (approx. 310 RIXML and 310 PDF files)
- A historical set will be maintained for future enhancements.

The Equity Research Company Reports (average/approx. 5 pages in length, plus financials & definitions) will offer in-depth analysis on companies covered by Morningstar's equity analysts. Reports provided will be limited to those equities that are referenced in either the Morningstar Canada Core Picks List or the Morningstar Canada Income Picks List.

- Delivery Frequency is to be daily and equity ratings data will be updated by the close of business every day that major U.S. stock exchanges are open.
- Delivery Format is a single XML file for all Equity Reports, one PDF for each company (approx. 30 expected).
- A historical set will be maintained for future enhancements.

Equity Research Notes – Morningstar produces 200-400 'Equity Notes' per day and these notes are immediately included in the research reports when necessary (PDF Reports are updated with equity notes intra-day, meaning that if we added a note at 10am, a new PDF is immediately generated). BMO will receive Equity Notes in a separate feed, which would allow BMOIL clients to stay updated on notable events.

- Delivery Frequency is to be daily and Equity Notes are to be updated intraday as market events occur.
- Delivery Format is to be a single XML file with all equity notes for MS universe.

With relation to Development, Wall Street On Demand will perform the following tasks for project realization: Bring in XML/PDF data from Morningstar FTP and storing data in a SQL database; Create a QID to pull the data from the SQL database and build a .CSV file; and, create an API to push the .CSV file to the BMO FTP site.
