

Innovation that makes investing easier

Fincentric™ by S&P Global provides the digital experiences and tools needed to navigate the complexities of the global financial markets.

Tailored Outcomes for Deep Financial Insights

Engage with us to identify your unique needs and build the optimized, data-rich solutions that will drive your business forward.

An Intelligent, Scalable Data & Technology Platform

Maximize your investment with our custom platform that serves high-quality data aggregation along with the volume and performance users expect.

A Team of Experienced & Dynamic Innovators

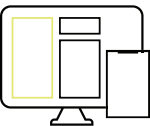

Trust our team to understand the emerging technology that will transform your digital experiences and help you face your biggest challenges.

Intelligent insights

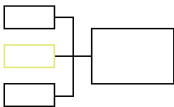

Increase user engagement, loyalty, and conversion with our deep understanding of the financial industry, digital trends and how to make the most of your data.

With 4,000+ data feeds already integrated into our flexible technology platform, we can quickly craft unique user experiences that make financial information approachable, usable and insightful.

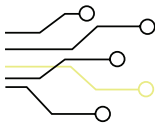

Design

Collaborate with our design team and benefit from our deep experience in financial data. We make information approachable, usable and ultimately insightful.

Data

Gain access to a world of data along with the tools to consume and enrich it. Our suite of capabilities is tailored to give you a competitive edge.

Delivery

Take advantage of our variety of implementation options, from customized apps to modular interfaces that are designed to go wherever your users go.
